Les gazebos sont fabriqués à Bali avec du bois de teck de catégorie A par des artisans indonésiens dans les règles de l'art. Certains modèles ont un toit en tuiles et d'autre un toit en alang alang.

Nous pouvons vous faire fabriquer l'ensemble de ces modèles ou vos propres modèles dans les dimensions de votre choix de 1.50 m à 10 m.

These gazebos are hand-made in Bali with teck wood of first quality by Balinese craftsmen

The thached roofs are made of alang alang.

All the models presented are available in the dimensions of your choice from 1.50 meters to 10 meters.

The balinese craftsmen with whom we work can also produce our own and exclusive models of Gazebos.

*Nous nous occupons de faire fabriquer votre propre production selon vos directives et veillons à sa bonne exécution (contrôle production, contrôles qualité, respect des délais, contrôle des emballages, contrôle des containers, acheminement jusqu'au port de destination)*

*We supervise your production on site and also container loading in Bali; and you thereby have quality and production amount always under control .*
