Ces meubles en bois de bateau recyclé sont fabriqués et peints à la main à Bali par des artisans balinais, que nous avons soigneusement sélectionnés pour leur savoir-faire et la qualité de finition de leurs produits. Tous ces articles sont conformes aux normes CE.

Il sont disponibles en dimensions standard. Les meubles peuvent être réalisés sur mesure ou selon vos propres plans et dessins.

Nous pouvons faire fabriquer votre propre production selon vos directives et veillons à sa bonne exécution (contrôle production, contrôles qualité, respect des délais, contrôle des emballages, accomplissement des formalités douanières, contrôle des containers, acheminement jusqu'au port de destination)

This furniture is constructed of recycled/ reclaimed boat wood coming from old Balinese Fishermen's boats. As we believe in fair trade, our creative craftsmen in Bali and Java have made agreements with local fishermen; when a fishing trawler has become too expensive to repair and would ordinarily be burned as cooking fuel, the fisherman sell them earning money towards a new vessel to continue their trade.

Benches, chairs, tables, chest of drawers, cupboards, cabinets, bedroom furniture are eco friendly. All this furniture is in compliance with international standards and should be exported to the United States of America, to European Countries and anywhere else through the world. These pieces of furniture are available in all standard dimensions. They can also be tailor-made or realized according to your own plans and drawings.

Your own production can be manufactured according to your instructions in Indonesia and we ensure its proper implementation (production controls on site, quality controls at each steps of production to meet deadlines, packing control packing, customs formalities, checking of containers, transportation to the harbour of destination)
